Independent auditor's report

To the Management and Founders of

the Fondi Slloveni Kosovari Pensioneve – Fund 2

We have audited the accompanying financial statements of the Fondi Slloveni Kosovari Pensioneve – Fund 2 (further referred as “the Fund 2”) which comprise of the Statement of Fund's Net Assets as of 31 December 2008 and the Statement of Income and Expenditure, Statement of Changes in Fund's Net Assets as of and for the year ended 31 December 2008, and a summary of significant accounting policies and other explanatory notes, included on pages 3 to 14.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with UNMIK regulations on pension system in Republic of Kosovo as well as the rules defined by Central Bank of Republic of Kosovo (CBK). This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion the financial statements of the Fund present fairly, in all material respects, the financial position of the Fund as of 31 December 2008, the results of its operations, and changes in net assets and participants' funds for the year then ended in accordance with UNMIK regulations on pension system in Republic of Kosovo as well as the rules defined by Central Bank of Republic of Kosovo (CBK).

Grant Thornton,

Skopje,
26 January 2009

Notes to the financial statements

1 General

The Fondi Sllloveno Kosovar i Pensioneve Sh.a. (hereinafter “the Company” or “FSKP”) was established as a shareholding association on 4 September 2006 based on the Law no. 03/L-084 amending UNMIK Regulation 2005/20 on Pensions in Republic of Kosovo. The operating license was obtained on 14 November 2006 based on regulations from Central Bank of Republic of Kosovo (“CBK”).

During the year ended 31 December 2008, the Company signed Agreements with KEK Supplementary pension insurance fund in liquidation (further referred to as “KEK”) and PTK Supplementary pension fund in liquidation (further referred to as “PTK”) for managing their assets and payment of monthly annuities according to the predetermined pension plans provided by KEK and PTK. The assets of KEK and PTK comprise the second pension fund under management of FSKP (further referred to as “Fund 2”).

The Fund 2 is administered and managed by the Company - FSKP, located at Nëna Terezë Nr.33, 10000 Prishtina, Republic of Kosovo. The principal shareholders of the Company are Prva Group, Slovenia and Corporation Dukagjini, Republic of Kosovo.

2 Accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below.

2.1 Basis of preparation

The financial statements of the FSKP have been prepared in accordance with the UNMIK regulations on pension system in Republic of Kosovo as well as the rules defined by Central Bank of Republic of Kosovo (CBK) with regard to the Kosovo Pension system.

These financial statements are prepared on the historical cost basis. Data are expressed in Euros, except otherwise stated.

Notes to the financial statements (continued)
Accounting policies (continued)

2.2 Cash and cash equivalents

Cash and cash equivalents, comprising balances with banks for pension contributions payments and for investments purposes, are carried at cost.

2.3 Financial assets

The Fund classifies its financial assets in the following categories: at fair value through profit or loss, loans and receivables, available for sale and held-to-maturity. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Assets in this category are classified as current assets. The Fund has no assets classified in this category.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. The Fund's loans and receivables comprise receivables from asset management company and cash and cash equivalents in the balance sheet.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date. The Fund has no assets classified in this category.

Held – to - maturity financial assets

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Fund's management has the positive intention and ability to hold to maturity. Were the Fund to sell other than an insignificant amount of held-to-maturity assets, the entire category would be tainted and reclassified as held for trading. The Fund has no assets classified in this category.

Regular purchases and sales of financial assets are recognized on the trade date – the date on which the Fund commits to purchase or sell the asset. Investments are initially recognized at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss.

Financial assets carried at fair value through profit or loss are initially recognized at fair value and transaction costs are expensed in the income statement. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership.

Available-for-sale financial assets and financial assets at fair value through profit or loss are subsequently carried at fair value. Loans and receivables are carried at amortized cost using the effective interest method. Securities held-to-maturity are measured at amortized cost using the effective interest rate method. Unrealized interest income and

Notes to the financial statements (continued)
Accounting policies (continued)

amortization of the discount/(premium) are recognized as income and expenses for the period.

(Financial assets, continued)

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the income statement within 'other (losses)/gains – net' in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognized in the income statement as part of other income when the Fund's right to receive payments is established.

Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognized in equity. When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in equity are included in the income statement as 'gains and losses from investment securities'.

Interest on available-for-sale securities calculated using the effective interest method is recognized in the income statement as part of other income. Dividends on available-for-sale equity instruments are recognized in the income statement as part of other income when the Fund's right to receive payments is established.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the Fund establishes fair value by using valuation techniques.

The Fund assesses at each balance sheet date whether there is objective evidence that a financial asset or a Fund of financial assets is impaired. In the case of equity securities classified as available for sale, a significant or prolonged decline in the fair value of the security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in profit or loss – is removed from equity and recognized in the income statement. Impairment losses recognized in the income statement on equity instruments are not reversed through the income statement. Impairment testing of trade receivables is described further in this note.

2.4 Net assets of the Fund 2

The Fund's net asset value equals total assets minus total liabilities of the Fund 2.

2.5 Interest income

Interest income includes interest on term deposits and is recognized on an accrual basis. There is a guaranteed interest rate of 3% annually for the first four years of annuity payout after the transfer of assets, which will be added monthly to the pensioners/beneficiaries.

2.6 Expenses for transactions fees

Notes to the financial statements (continued)
Accounting policies (continued)

These expenses relate to the fees paid to banks that provide services for the Fund 2, and are accounted for on an accrual basis. These expenses are recharged to the Company.

2.7 Income tax expense

Under the prevailing provisions of the local income tax law, the entity is exempted from payment of income taxes.

Notes to the financial statements (continued)
As of and for the year ended 31 December 2008
(All amounts are expressed in EUR, unless otherwise stated)

3 Placements with banks

	2008
Interest bearing term deposits from local banks	
Banka Ekonomike – 4.00%-6.00% p.a.	1,796,697
ProCredit Bank – 5.15% p.a.	418,734
	2,215,431

4 Interest income

	2008
Placements with Bank Ekonomike	85,850
Placements with ProCredit Bank	31,867
At 31 December	117,717

According to the agreement signed with PTK, dating 14 March 2008, guaranteed interest rate of 3% annually for first four year of annuity payouts will be added monthly to the Fund's participants originating from PTK supplementary pension fund.

According to the agreement signed with KEK, dating 14 March 2008, 70% of total interest received will be paid to Fund's participants originating from KEK supplementary pension fund.

5 Management fees

According to the agreement signed with PTK supplementary pension fund provider, dating 14 March 2008, the PTK fund participants will be charged a transfer fee in the amount of 0.5% to each participant individually at the moment of asset transfer. The total amount charged during 2008 equals to EUR 9,453.

According to the agreement signed with KEK supplementary pension fund provider, dating 14 March 2008, 30% of the total amount of interest received on funds deposited, shall be paid as a management fee to the Company. The total amount charged during 2008 equals to EUR 3,606.

6 Personal tax expense

According to the Regulation 2004/52 on personal income tax, contributions paid out to pensioners are subject to personal taxation. The total amount of taxes being paid during 2008 equals to EUR 23,069 for Fund's participants originating from PTK supplementary pension fund and EUR 8,846 originating from KEK supplementary pension fund

7 Transactions with related parties

Related parties are considered to include major shareholders, affiliates and entities under common ownership, control and management with the Fund, or whose activities the Fund has an ability to control.

The Fund related parties are Prva Group from Ljubljana, Slovenia and Corporation Dukagjini from Peja, Republic of Kosovo, which are managing and administering the Fund 2.

Notes to the financial statements (continued)
As of and for the year ended 31 December 2008
(All amounts are expressed in EUR, unless otherwise stated)

Transactions with related parties (continued)

All Fund's transactions with related parties arise in the normal course of business and their value is not materially different from the terms and conditions that would prevail in arms-length transactions. All related party transactions and balances refer to the Company, FSKP and are as follows:

	2008
Receivables from the Company	8
Expenses	13,206
<hr/>	

Notes to the financial statements (continued)
Financial risk management (continued)

8 Financial risk management

The Fund's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of risks. The Fund's aim is to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Fund's financial performance.

The Fund's risk management policies are designed to identify and analyze these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Fund's Management regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice.

Risk management is carried out by Risk Management Department under policies approved by the Company. This department identifies and evaluates financial risks in close co-operation with the Fund's operating units. The Fund provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk and credit risk.

10.1 Market risks

Interest rate risk

The table below analyses assets and liabilities of the Fund into relevant maturity groupings based on the remaining period at balance sheet date to the contractual maturity date as of 31 December 2008 (in EUR).

31 December 2008	Less than 1 month	From 1 to 3 months	Interest-bearing From 3 to 12 months	From 1 to 5 years	Over 5 years	Non-interest bearing	Total
Assets							
Placements with banks	-	232,503	508,122	1,378,323	96,483	-	2,215,431
Other receivable	8	-	-	-	-	-	8
	8	232,503	508,122	1,378,323	96,483	-	2,215,439
Liabilities	-	-	-	-	-	-	-
Net interest risk gap	8	232,503	508,122	1,378,323	96,483	-	2,215,439

Foreign currency risk

At 31 December 2008, the Fund is not exposed to foreign currency risk since all transactions are carried in the currency of the local economic environment, i.g. Euro.

10.2 Liquidity risk

The tables below analyze assets and liabilities of the Fund into relevant maturity based on the remaining period at balance sheet date to the contractual maturity date (in EUR).

31 December 2008	Less than 1 month	From 1 to 3 months	From 3 to 12 months	From 1 to 5 years	Over 5 years	Total
Assets						
Placements with banks	-	232,503	508,122	1,378,323	96,483	2,215,431
Other receivable	8	-	-	-	-	8
	8	232,503	508,122	1,378,323	96,483	2,215,439
Liabilities	-	-	-	-	-	-
Net liquidity gap	8	232,503	508,122	1,378,323	96,483	2,215,439

10.3 Fair Value estimation

Fair value represents the amount at which an asset could be replaced or a liability settled on an arms length basis. Fair values have been based on management assumptions according to the profile of the asset and liability base.

The following table summarizes the carrying amounts and fair values to those financial assets and liabilities not presented on balance sheet at their fair value.

	Carrying value 2008	Fair value 2008
Assets		
Placements with banks	2,215,431	2,215,431
Other receivables	8	8
